

## ABOUT US

Shri Ram Castech private limited serves the construction, mining, aggregate and dredging industries with its wide range of manganese steel castings. Strategically located in the heart of national capital region of Delhi, Shri Ram Castech is easily reachable through Indira Gandhi International Airport. Proximity to Inland Container depots (ICD) in Tuglakabad, Delhi, BALLABGARH, Faridabad AND PALWAL, enables Shri Ram Castech to ship and deliver cargo faster, across all regions.

## QUALITY

Quality control begins the moment raw materials reach our factory. Major molding raw materials are checked for different parameters in our test lab ensuring consistent mold quality and casting finish. Also, timely delivery and stringent quality check is done to analyze the products produced. As a company policy, we don't promote any double standards in our foundry.

## VISION & MISSION

Our vision is to be one of the largest producers of quality castings by favorable utilization of resources, providing more value to the users, and in turn contributing to the society and the environment.

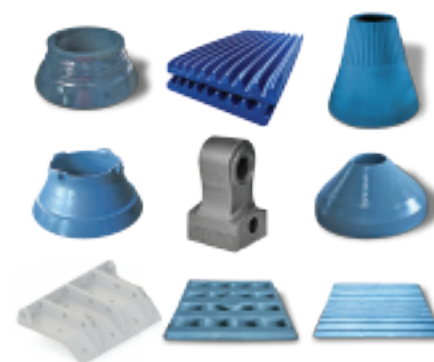

## INFRASTRUCTURE

With top-notch infrastructure and state-of-the-art machinery, the unit is designed to deliver products par excellence. We believe it is consistent quality that builds a brand, and not tall promises. We also adopt Environment friendly SOPs and we continually focus on the health and safety of our prized workforce.

## PRODUCTS

SRC Produce high quality manganese wear parts up to 4000 kgs. For Jaw, Cone, Gyratory, HSI/VSI crusher application. Our experienced engineers produce grades up to 24% manganese depending on wear part application. We are always innovating to improve your productivity through R&D, resulting in lower cost per ton crushed.

## WHAT WE SERVE

SRC has been diligent and consistent with the quality of products supplied to our customers. We dedicatedly serve the Construction, Mining, Aggregate and Dredging industries with our wide gamut of World class Manganese Steel Castings.
